Our response to the novel coronavirus in 2023 entrance examination

Regarding the novel coronavirus infectious disease, the situation is changing day by day and it is difficult to foresee further measures.

Considering this situation, we may take emergency measures to change the examination schedule and selection methods described in this application guideline in the 2022 entrance examination even after the application period.

In addition, we assume that each exam venue must be changed in order to prevent infectious diseases. If each exam venue exceeds its capacity, you might be able to take exams in different venue from where you wished.

If we take emergency measures for 2022 entrance examination, we will inform you about it on our website.
