

## Notice on preventative measures against COVID-19 in the Entrance Examinations for 2021

International University of Health and Welfare  
Admissions Office

Regarding the entrance examinations for enrollment in April 2021, we hold in-person examinations with thoroughly implementing infection prevention measures. Please note our responses to COVID-19 below when you apply for our entrance examinations. Also, we will post the updated information on our website if there are any changes in the examination methods. Therefore, please check our website regularly.

### 1. Applicants must keep the followings.

- ① Applicants who meet any of the following conditions below are required not to take the examinations.
  - In case you are infected with COVID-19 and not diagnosed you are recovered by the day of examinations.
  - In case you are designated as a person who has close contact with someone who have COVID-19 just before the day of examinations by the public health center or medical institutions.
  - In case you have had a fever of 37.5 C or higher, coughing for several days before the examination.
  - In case you have any other symptoms of suspected COVID-19 infection.
- ② Responses to COVID-19 on the day of examinations
  - On the day of examinations, we do not take your temperatures at the entrance. However, you should take care of yourself such as taking your temperature in the morning
  - On the day of the examinations, you must wear a face-mask and bring it your home.
  - You should disinfect your hands with an alcohol-based hand sanitizer at the entrance of the building and room when you enter and leave.
  - You should have a lunch at your desk in the examination room and refrain from contacting and taking to other persons.
  - You should ask the proctor immediately if you feel unwell in the examination venue or room on the day of examination.
- ③ Other notices
  - We do not prepare a waiting room for guardians or companions to suppress the number of visitors in the examination venue.
  - We open the windows in examination rooms for ventilation. Please bring warm clothes if you need.

### 2. We take the following measures to prevent COVID-19 disease infection and conduct in-person examinations as planned.

- We keep the distance between applicants in the written examination rooms is more than 1 meter and the distance between an applicant and interviewers in the interview rooms is more than 2 meters.

- We regularly open the windows and ventilate the examination and interview rooms.
- Proctors and staff wear a face-mask or face-shield in the examination venue.
- We install alcohol-based hand sanitizers in the examination venue and rooms.
- We sanitize desks and seats in the examination rooms on the day before the entrance examinations.
- We ventilate the examination rooms during entry and break time.
- We take appropriate measures to avoid the “crowds” when applicants enter and leave the examination venue and room.
